Seattle, WA

EDUCATION

University of Washington, Seattle, WA   **September 2019 – June 2023**

B.A. Mathematics   GPA – 3.76

WORK EXPERIENCE

Dell Technologies, Seattle   **June 2022 – Present**

Dell PowerScale – Software Engineer II   July 2025 - Present
· Enhanced the upgrade framework for OneFS, the Unix-like filesystem behind Dell PowerScale
· Maintained OneFS supportability tools and system service daemons

Applications and Data Platform Solutions – Software Engineer I   July 2023 – June 2025
· Developed custom cloud deployment automations through Dell NativeEdge, an edge operations platform
· Built a GUI and several upgrade features for Dell Omnia, an open-source solution for HPC and AI

PowerProtect Data Manager – Software Engineering Intern   June 2022 - August 2022
· Co-developed two performance testing frameworks for the backup software PowerProtect Data Manager
· Automated seven sample JMeter tests and integrated them into a Jenkins CI/CD pipeline

International Academic Competitions, Remote   **January 2020 – May 2022**

National History Bee and Bowl – Question Writer
· Wrote over 200 paragraph-length technical questions for NHBB, a national high school history competition
· Sifted through thousands of questions on the database QuizDB to identify historical question patterns

SIDE PROJECTS

Popheads Chart (MERN Stack / Tailwind CSS / react-select / Chart.js)   **July 2022 – July 2023**
· Launched a web application that uses Reddit's API to parse listening data from 2566 pop music fans
· Deployed 10 middleware API endpoints to handle secure traffic through the Node server
· Displayed listener data with nearly 300 reactive chart views, including a reactive line chart

Quizbowl Buzzer System (Arduino)   **July 2021 – September 2021**
· Programmed an 8-player "buzzer system" for quizbowl, a fast-paced academic competition
· Processed real-time input from 9 physical controllers using a microcontroller and 9 interrupt handlers

Data Exploration of *The Wandering Inn* (R / Shiny / dplyr / Plotly / rvest)   **March 2021 – May 2021**
· Analyzed features of *The Wandering Inn*, a 50,000-page fantasy novel on the Internet
· Created an interactive frontend that allows users to display 57 custom chart views
· Scraped text data from 94 different web pages, processing over 2,000,000 words

LEADERSHIP

UW Quizbowl, Seattle, WA   **December 2020 – June 2023**

Club President, Outreach Director, and Webmaster
· Tripled the membership of UW Quizbowl to 40, now the largest student-run quiz team in Washington
· Recruited 30 high schools for the largest ever quizbowl tournament in the Pacific Northwest
